

ACTIONS TO PROTECT THE PLANET

Small actions that have a big impact!

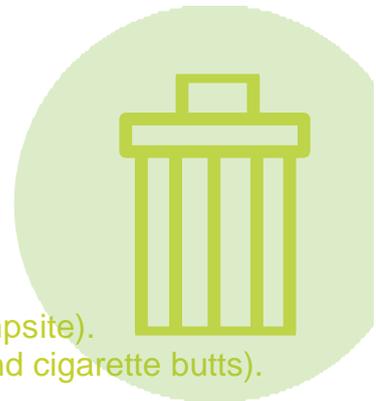

LIMIT YOUR WATER CONSUMPTION

1. Turn off the water when soaping your hands or brushing your teeth.
2. Use the dual flush.
3. Use the dishwasher rather than washing up by hand.
4. Use the eco-friendly programmes on the dishwashers and washing machines.
5. Take short showers (5 minutes)
6. Drink tap water.
7. Contact our technical service department in the event of a leak.

REDUCE YOUR WASTE

1. Buy in bulk and avoid individual packaging
2. Use reusable bags.
3. Use reusable or recyclable dishes.
4. Limit your use of single-use products (paper towels, wipes, etc.)
5. Sort your waste (selective sorting containers at the entrance to the campsite).
6. Do not throw anything into the natural environment (including rubbish and cigarette butts).
7. Pick up any rubbish that you find.

SAVE ENERGY

1. Use blinds and shutters to keep rooms cool.
2. Only use air conditioning when it's very hot (set it to 25°C).
3. Turn off the air conditioning or heating when you leave the premises.
4. Close the windows when you are using air conditioning or heating.
5. Turn off lights and electrical equipment if you are not using it.
6. Disconnect chargers after use.
7. Make sure you fill washing machines and dishwashers and use short cycles at low temperature.

RESPECT THE LOCAL ENVIRONMENT

1. Try to buy and consume local products.
2. Opt for professionals who are committed to sustainable management.
3. Use environmentally-friendly modes of transport (on foot, option of hiring bikes, electric boats, paddle boarding and canoeing).
4. Adopt behaviours to conserve the Verdon's natural resources: stick to the marked-out routes and avoid trampling on and eroding protected and fragile areas.
5. Use natural, non-chemical insect repellents.
